Invest in Georgia: Opening New Opportunities

to be held at

**101 Federal St., 16th floor
Boston, MA 02110**

**January 30, 2006
4-7 PM**

In recent years, Georgia has become one of the key allies of the United States in Central Eurasian region, and can be seen as a model for effective cooperation between a small country and the world's superpower. It has provided troops for Coalition operations in Iraq, as well as air and land corridors for American troops operating in Afghanistan. By providing the access to open markets for hydrocarbons from the Caspian region, Georgia also serves as an important player in global energy security. Georgia presents an excellent opportunity for investments in hospitality and tourism business, wine industry and agribusiness. At the same time, difficult relationships with Russia, as well as the Soviet legacy in general, still create serious obstacle for development.
